HOW TO USE THE SUPPLY CATALOG

The 1975 GSA Supply Catalog is published in four Volumes. Volume 1 contains an alphabetical index, descriptions for most stock items, and listings for items and services available through other FSS supply programs. Volume 2, issued quarterly, contains a National Stock Number Index with current prices and other ordering information, and changes to Volume 1. Volume 3 contains descriptions for Improved Federal Supply Schedule items. Volume 4 is a price list for Volume 3.

EASY TO USE

Whether you know the stock number (NSN) of an item or you only know its name, there are three EASY steps to using this CATALOG:

If you know the National Stock Number . . .

- Consult the National Stock Number Index in Volume 2.
- 2 Isolate the NSN in the Index. This will usually give you sufficient ordering information including price. If more detail is desired, refer to the page number indicated.
- 3 See the section entitled FSS Stock Program starting on page lxxxi of Volume 1.

If you know only the item name or if a service is required in Volume ${\bf 1}$. . .

- Consult the Alphabetical Index of Commodities and Services starting on page xi of Volume 1.
- 2 Isolate the item by name. If a page number is given, go to that page. If no page number is listed, or a symbol appears in addition to a page number, note the symbol(s) given (e.g., 180, FSS 71-V; FSS 78, 84-1A, TC R-8), and see page xi for further information.
- If you need ordering information, see page Ixxxi of Volume 1 for the Stock Program; page 379 of Volume 1 for Schedules; and page 378 of Volume 1 for other buying programs.

NOTE TO DOD ACTIVITIES

GSA supply publications are prepared for civilian agencies. They are issued to DoD activities for informational purposes only. DoD activities should refer to their respective service Management Data Lists (ML's), other service supply publications, or internal issuances before processing requisitions to GSA.

Addresses (mailing and cable) to which orders or requisitions and inquiries should be sent. Routing identifiers are listed for the convenience of ordering personnel in transmitting requisitions, followup inquiries, or cancellations in FEDSTRIP/MILSTRIP format. Telephone numbers include those for normal working hours; domestic and export emergency orders; and off-duty hours including weekends and holidays.

Orders should be transmitted to the GSA regional office servicing the geographic area in which the consignee is located unless Federal Supply Service officials specifically direct otherwise.
